SKILLS

Technical Skills: React.js (TypeScript), Next.js (Basic), Tailwind CSS, Bootstrap, jQuery, Flask, Java Spring Boot, Express.js (Basic), Laravel(Basic), PostgreSQL, MySQL, MongoDB, Redis, REST API Development, API Integration, JWT Authentication, TanStack, Zustand, Zod, Gitlab, Git, Figma, Docker

Soft Skills: Team Collaboration, Problem Solving, Adaptability, Time Management, Active Listening, Creativity

LANGUAGES

Indonesian - Native

English - Basic

Salahudin Kholik Prasetyono

Fullstack Web Developer

I am a Fullstack Web Developer with experience building web applications from frontend to backend. I use React.js (TypeScript) for frontend, and Flask or Spring Boot for backend. I also work with MongoDB and SQL databases. I can build responsive user interfaces and create structured backend systems using REST APIs. I am familiar with Git and team collaboration workflows. I also understand software testing (manual and API) to help keep the application quality good. I am proactive and focused on solving problems based on user and business needs.

Experience

Lincah - Member of Ordonesia — Bandung, Indonesia

Information Technology Software Engineer Intership — 2025-12 - Present

I contributed to the development of web applications using Next.js, MongoDB, and Docker within a team, including developing features for the Salfok project with a contribution of approximately 20% of the team's target. Additionally, I performed Quality Assurance (QA) on an internal system (SAP) by creating over 20 test cases and conducting manual and API testing using Postman on dozens of endpoints. I also managed and monitored over 30 bugs through ClickUp and OpenProject until all issues were resolved, thereby helping to ensure the quality and stability of the applications.

Haltev IT Learning Center — Bekasi, Indonesia

Instructor Freelance — 2025-02 - 2026-01

I have experience teaching coding courses to children and adults, both remotely (WFH) and in-person (WFO), including in a collaborative program with Unity School, having conducted over 50 learning sessions. I developed the curriculum, materials, and company-standard evaluation questions across more than 10 structured modules, while also mentoring over 30 participants through practical approaches and case studies to ensure optimal comprehension. Beyond teaching, I contributed to internal web development with the technical team, and honed soft skills such as communication, collaboration, and mentoring through active interaction with participants and the team.

PT Winnicode Garuda Teknologi — Bandung, Indonesia

Fullstack Web Developer Intern — 2024-09 - 2024-12

During remote work experience, I developed full-stack web applications by building 5+ end-to-end features and improving system performance. I utilized Git for collaboration (20+ commits, branching, and code review), designed 10+ pages with UI/UX principles, ensured responsive design across various devices, and implemented basic web security practices such as XSS, CSRF, SQL Injection, and data encryption.

S-TechX — Kabupaten Bekasi, Indonesia

Fullstack Java Web Developer Freelance — 2025-12 - 2026-03

I worked on a remote project where I helped understand the client's business needs and turned them into technical solutions. I supported the system migration from start to finish (100%) until it was fully implemented. I built a web application using Spring Boot, MySQL, and React.js (TanStack Query), including creating 5+ APIs and 10+ main components that are fully integrated. I also provided training sessions for users and created clear documentation, helping improve system usage and understanding by around 80%.

Education

Bina Sarana Informatics University — Bekasi, Indonesia

Bachelor of Informatics — 2021-09 – 2025-12

Certifications

- Analis Program LSP- Software Development - Lembaga Sertifikasi Profesi Universitas Bina Sarana Informatika – 2024-08-22
- Dokument Kepesertaan Coding Camp 2025 - DBS Foundation Camp - Coding Camp powered by DBS Foundation – 2025-07-16
- Independent Fullstack Developer Internship - PT.Winnicode Garuda Indonesia – 2025-01-01
- Essential Programming Course – Fullstack Web Development - PT. Global Investment Institusi – 2023-12-31
